

NEW FEATURE

Presented by:

Business Promotion Opportunity:

City Administrator, John Jezak, and the Maumee Chamber want to highlight your company and its unique place in the Maumee business community by creating a short promotional video.

Our Process:

- A video production team from AFP Marketing will join John at your business to film a segment of the video series, **"Spotlight on Maumee with John Jezak"**
- John will talk to your company representative in advance to nail down the topics to be covered in the video.
- Filming will take place at your location; the crew will bring in two cameras and will plan to capture b-roll (background footage) if appropriate.
- This will be an interview style format, with John leading the conversation • The entire filming time will be less than 30 minutes.

The Finished Video

- The finished video, created in HD at 1920 x 1080p, will be available within two weeks of the filming date
- It will be promoted by the Chamber, via email, social media and ultimately will be hosted on our website. AFP Marketing will also promote the video on their social media, video network and Roku TV network.
- You will also receive the completed video and be able to use it as you wish, and the cost is only \$400!
